PRESIDENT'S LETTER

PARADE, PARADE, PARADE! It may seem that Parade is still a long time away, June 15th, but registration starts in a month on March 11th. If you are not currently registered on the PCA website, please take the time to do so now. It will help speed up the Parade registration process, which does take some time to complete all the information that is needed for the application to be accepted.

As long as I am on the subject of registering on the PCA website, we have noticed in the 2014 Election notification process that many members have not updated their membership information on the PCA membership roster. Please update your information by going to pca.org, log-in, then right in the middle of the page is "update membership information". Review your information on this page and correction or complete any information that is not correct or is missing. By doing this, it also updates the LPR membership roster which allows us to keep you informed of club events and notices. Also note that you cannot update your affiliate's information; this must be done by the affiliate.

Back to Parade. Parade headquarters will be the Hyatt Regency, Monterey. This hotel has 550 rooms, so Parade Committee has made arrangements at five hotels to handle all the attendees. The Hyatt Regency will not be taking any advance reservations, just in case you were thinking of doing so. You will only be able to register at the Hyatt Regency after you receive Parade

entry confirmation. You may be able to register at other accommodations in advance, so if you know of another hotel, bed & breakfast or rental house you would prefer, you may want to do so now. Prices will only go up as Parade nears.

On other National bits of information, the new PCA website will be rolling out soon. Keep an eye out for it. Also, if you have not noticed, our own Tom Provasi has been elected to head up the PCA Werks Reunion committee. Congratulations Tom!

EDITOR'S LETTER

Many folks often tell me that they liked the simpler times. A recent story on the nightly news focused on how many hours people spend working today during a normal work week. The trust of the message was that it had taken the labor unions many years to provide workers with a 40 hour work week and that it has taken the Smartphone only about 5 years to destroy it. People have less free time because they are now always connected to work through their Smartphones.

With my current situation staying near San Francisco with daily medical treatments have come to appreciate my Smartphone. I am more connected to

LAGUNA SECA AUTOCROSS - 1987

Check out this LPR Board member autocrossing at the Laguna Seca paddock area with the Corvette club. That helmet doesn't go on until the last minute.

The Porsche Club and Corvette club would often run joint autocross at the time. The paddock area gave plenty of room for long straights to and from the tight part of the course...a favorite of both clubs. I think we often could reach 70-80 mph.

This month Ken shares “the way we were”, old photos from yesteryear in some hotel room somewhere. As Kens says, It was all clean fun, no hanky-panky, but we loved to pretend that we were up to no good.

From left to right the folks are: Jimmy Kershaw, Rosemary Davis, June Iles, Esper Kershaw, Chuck Davis, Marilyn Schatz, Ken Iles, Joanna Herz, Kathy Reed, Fred Schatz, and John Reed.

Above, Joanna and Marilyn came out of their room dressed like this and pretended to seduce me. Loved it !; Below, a young looking Rudi Herz trying my trick of the misplaced hand with his wife Joanna.

Unlike previous years, this day was to be sunny, warm and totally un-winter like. If we'd known what a winter we'd be having, I'm sure there would have been a lot more tours scheduled for January.

Les to the rescue, with his annual Crow's Nest Brunch and Tour. It

couldn't have been a more perfect day for a drive to the beach.

We met at a civilized hour at the former Hobee's location, in Los Gatos. Yes, the one with the terrible nose scraping driveway cut. As Double D's was hosting some kind of sports event, parking was non-existent. We chose to

just line-up and take over the parking lot. Worked for us!

We had ample time to reconnect with friends we hadn't seen since the LPR Holiday bash and it was nice to have some new members join us.

Les started the drivers meeting with a request for someone to write the article

for the Post. Dead silence falls over the crowd. Les goes with plan 2.

On the tour directions is stapled a raffle ticket. Everyone thinks prizes. NOT! Win a chance to write the story. So Les starts calling out numbers and again: silence. After calling a few more phantom numbers, I offer to do it just

so we could get this tour on the road.
So ya gets what ya gets.

We toured a familiar route up Highway 17 to Bear Creek Rd. Old Santa Cruz Highway to Summit Road and into Soquel. The Santa Cruz bay looked fantastic. It could have been a beautiful day in May but certainly not a typical day for January. Got to love that global warming thing.

Anne Roth and Carol McNamara had arrived at the Crow's Nest early and secured preferred parking for the group. It was nice to have our own personal parking attendants. Both Anne and Carol are used to herding cars around during the LPR autocross series, so parking was a breeze.

We had the same wonderful private room as in the past, with beautiful views of the harbor and the bay. Wouldn't mind waking up to this view on a daily basis.

The Crow's Nest printed special menus for us, which made us feel very special indeed. There were enough entrée choices to satisfy all tastes. I had the Seafood special which was mahi mahi and delicious. Kris, ever the carnivore,

had the sirloin. It was nice to sit with Anne and Carol and talk about the upcoming AX season. Also at our table were Nicola and Gary Gordon, newly transferred into LPR. Good to have some new folks to talk with as anyone will tell you, it gets boring talking to me time after time.

After a leisurely brunch, some of the group headed north to Natural Bridges and others, like Kris and I, headed to a local Santa Cruz winery! If we're in the neighborhood we make a point to visit the Soquel Winery. Kathy and Johnny Musser have planned another event here for 2014. Last years event filled up fast, so make sure to rsvp early. Check the LPR calendar for the date.

Thanks Les for continuing the tradition of first tour of the year. Couldn't have been better. Oh..... I did get my \$5.00 tour fee refunded for offering to write the article. Hope you got your 5 bucks worth!

First Porsche uncovered after 112 years of hiding

by Justin Hyde
Motoramic

For as much as we talk about barn finds, the window of time for such vehicles tends to be measured in a few decades; any more than that and the ravages of time and memory tend to destroy anything so long abandoned. On Monday, Porsche revealed that it had recently acquired the barn find of the century — the first car ever designed by founder Ferdinand Porsche, which hit the roads of Austria in 1898, and has been locked away untouched for the past 112 years.

The car in question doesn't look like much more than a horse buggy, but in its day was a technological feat. Designed by Ferdinand Porsche at the

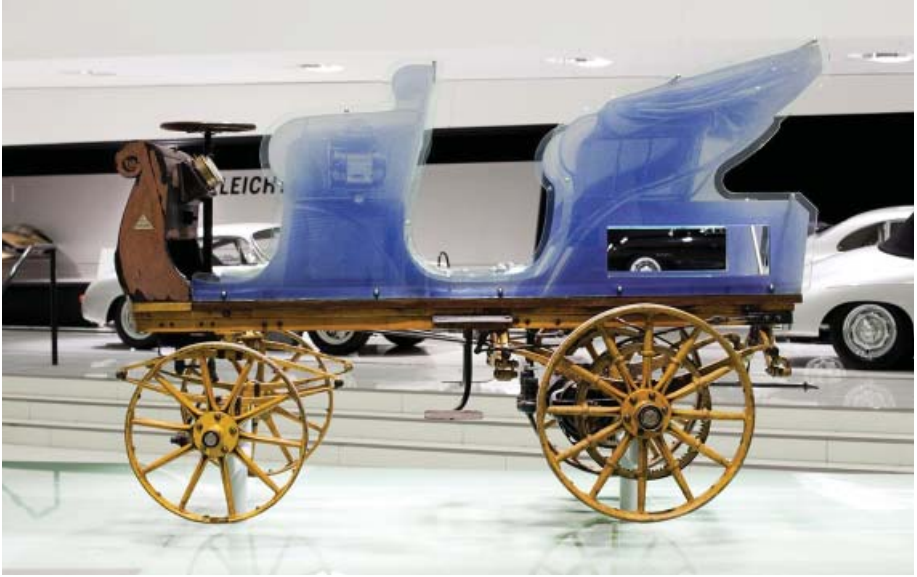

age of 22, the car was known as the Egger-Lohner, but also dubbed the P1 by its creator, who engraved that code on its major parts. Powered by a 3-hp electric motor in the rear driving a 12-speed control unit, the 2,977-lb. P1 could reach 21 mph, and travel 49 miles on a charge. The body, which no longer exists, could be easily altered from a coupe to a open-top style.

After its first drive on June 26, 1898, Porsche continued developing the car, and in September 1899 won a 24-mile electric-car race with three passengers, finishing 18 minutes ahead of the next challenger. Porsche would go on to work for Mercedes and other

German automakers; it wouldn't be until 1948 that he would found his own automaker.

Porsche has declined to reveal details about how it found the car or how the P1 managed to exist in an unrestored state this long; a spokesman told Yahoo

Autos that the person who uncovered it wished to remain anonymous. The vehicle will now live at Porsche's museum in Stuttgart, Germany — and with it, the mystery of how it survived the 20th century.
